ABOUT EAGLE FLIGHT

Founded in 1975 as a non-profit organization, Eagle Flight Squadron has stressed the importance of developing trade, manual, and educational skills related to aviation.

Students are given their own wings, literally and figuratively, and have the opportunity to become a licensed private pilot by the end of their high-school career.

THE PROGRAM

Located in East Orange, NJ, Eagle Flight's program runs every Thursday between 5:45-9:00pm.

Our rigorous curriculum allows students to prepare for each milestone along their journey.

We cover flight training in our two aircrafts - a Cessna 150 and Cessna 172.

Students fly out of Essex County Airport in Fairfield, NJ

LEADERSHIP + OPPORTUNITY

Eagle Flight provides access and exposure to youth. We partner with major aerospace personnel and companies each year to provide career development, internship opportunities, and college prep.

The program is ran by the students, creating room for the development of leadership qualities and skills.

Elections are held in June of every school year. This gives students the opportunity to showcase their leadership skills and be selected by their peers to lead them in the following school year.
